

5 Reasons for Pod 303

Low Startup costs

- 1 Pods' start up costs are low, roughly 20% of a conventional business set up. They require minimal capital outlay, are installed in just one day and generate income as soon as they arrive on site.

Business Sense

- 2 Pods make good business sense. They attract new and retain existing customers, enable you to react to a changing business picture, are ideal franchise vehicles and highly effective brand ambassadors.

Quality

- 3 Pods are quality items. Unique in style and function, they are constructed from sleek, hard wearing materials and cast from moulds to ensure constant build quality.

Superb Functionality

- 4 Pods offer superb functionality, providing heat and chilled food options and supporting changing food offers and site variations. They are lockable, secure, flame retardant, water resistant and colour fast. Highly mobile, they are shipped in plug-in-and-trade condition, anywhere in the world.

Peace of Mind

- 5 Pods are simple. They trade on bottled water, need only one 63 amp cable and don't require specialist installation. They are guaranteed for parts and labour and offer the comfort of comprehensive service back up.
